**Assignment 0925 Feedback**

Because we have not yet fully explored the scopes of outcomes *1b* and *2b*, those proficiencies have a maximum value (for this assignment) of |. That proficiency, for those outcomes, carry the signal “keep doing what you're doing.”

You really hit all the beats in this assignment, which is why I considered this to be SCCUR-worthy. Nothing much to say except keep doing what you're doing, and all will be well. There are super-tiny tweaks in your LaTeX file; just check the diffs and ask me if anything is unclear.

Particularly noteworthy is your writing voice. It is not only technically correct (which really is a minimum at this stage) but your tone is mature, clean, and communicative. If you are on an advanced studies trajectory (MS, Ph.D.) then you are certainly ready for it in the writing department!

*1a* — +

*1b* (max |) — |

*2a* — +

*2b* (max |) — |

*4d* — + (particularly that introductory paragraph)

*4e* — +

*4f* — + (images added later but we will chalk that up to learning curve)
